SUMMARY

Final-year Computer Science student at Jadavpur University, eager to build reliable and efficient software solutions. Adaptable, goal-driven, and highly motivated to contribute to innovative development projects while solving real-world challenges.

EDUCATION

Degree	Institute/Board	City, State	CGPA/Percentage	Year
B.E., CSE	Jadavpur University	Kolkata, West Bengal	7.75	2022 – 2026
Higher Secondary	Pathfinder Higher Secondary Public School	Midnapore, West Bengal	96%	2020 – 2022
Secondary	Bajarpur Ramkrishna High School (H.S)	Uttarkhamar, West Bengal	96%	2015 – 2020

EXPERIENCE

- EY (Ernst & Young)** 01/2026 – 05/2026
AI Engineer Intern Kolkata, India
 - Worked with the US BCM team at EY to develop enterprise-scale AI solutions for EUC analysis, documentation generation, governance, and process innovation.

PROJECTS

- EUC Analysis and Documentation Generation** 05/2026 - Present
Tools: • Python • LLMs • RAG • Azure
 - Developed an AI-powered enterprise solution that automates EUC document ingestion, sheet wise analysis , Well Structured documentation generation , HITL , Chatbot feature
- Crowdsourced Local Services: Hourly-Based Home Service Platform** 01/2025 - 07/2025
Tools: • MERN Stack • OpenCage API • Machine Learning [Github](#) [Live](#)
 - Built a full-stack MERN platform featuring AI-driven service recommendations, face-recognition authentication, real-time communication, and location-aware provider discovery.
- Multimodal Skin Lesion Classification using EfficientNet-B3** 08/2025 - 12/2025
Tools: • Python • TensorFlow • Keras • Scikit-learn [Kaggle Notebook](#)
 - Designed a multimodal deep learning framework combining dermoscopic images and patient metadata to improve skin lesion classification accuracy.
- Fraud Detection using Machine Learning** 05/2025 - 08/2025
Tools: • Python • Scikit-learn • Pandas • NumPy • Streamlit [Colab Notebook](#)
 - Developed a machine learning pipeline for fraudulent transaction detection using automated preprocessing, feature engineering, and robust model evaluation techniques.

SKILLS

- Languages** C++,Python JavaScript, SQL, Bash, JAVA
- Frameworks** Scikit, NLTK, SpaCy, TensorFlow, Keras, Flask, NodeJS
- Tools** Kubernetes, Docker, GIT, PostgreSQL, MySQL, SQLite
- Platforms** Linux, Web, Windows,AZURE,AWS, GCP
- Soft Skills** Leadership, Event Management, Writing, Public Speaking, Time Management

ACHIEVEMENTS & CERTIFICATES

LeetCode	leetcode-link — 750+ problems solved (64% acceptance), Contest Rating: 1550
GeeksforGeeks	gfg-link — 500+ problems solved, Contest Rating: 1725, Global Rank: 5711, 3* Coder
Microsoft	Microsoft Certified: Azure AI Fundamentals (AI-900) — Demonstrated foundational knowledge of Artificial Intelligence and Azure AI services.
Udemy	Python A-Z™ : Python For Data Science With Real Exercises
